Delayed Orders	1391
On-Time %	0.6686
Delayed %	0.3314
Average Expected ETA (min)	50.84
Average Actual Delivery Time (min)	130.88

Task 6 KPIs

Total Orders	4197
Average Delivery Time (min)	130.88134381701215
Median Delivery Time (min)	50
Minimum Delivery Time (min)	0
Maximum Delivery Time (min)	22946
Standard Deviation	582.7644902722814

Task 7 KPIs

Total Orders	4196
Average Expected ETA (min)	50.84056244041945
Median Expected ETA (min)	52
Minimum ETA (min)	22
Maximum ETA (min)	141
Standard Deviation	15.612503288858269

Business Recommendations

- Improve inventory availability to reduce Item NA at Store delays.
- Optimize rider deployment during peak demand hours.
- Reduce manual delivery marking through process automation.

- Use traffic-aware routing for riders.
- Monitor extreme delivery delays separately for root-cause analysis.
